Re: Annual Report for the Year 1995, Rainbows End, S/053/032, and Rainbow Millsite, S/053/045, Washington County, Utah

Dear Mr. DeLong:

Thank you for submitting your 1994 annual report of mining operations and the formal Notice of Intention to Commence Small Mining Operations for your Rainbows End mine site. We received this information on December 8, 1995, which was sent in response to our October 20, 1995 request. Your small mining notice is complete and no further information is required at this time. Your small mining permit is good for the life of the mine, unless you plan to expand beyond five (5) acres of surface disturbance. A Notice of Intention to Commence Large Mining Operations (Form MR-LMO) would need to be filed and approved prior to expanding beyond the 5 acre threshold of your small mining permit. Your 1994 annual report stated that your disturbance is at 4 acres.

Enclosed are two additional annual report forms (MR-AP) for reporting the 1995 year. One is for the Rainbows End mine site (S/053/032) and one is for the Rainbow Millsite (S/053/045). These year end reports are due by January 31st each year, unless you have received a written waiver or a formal release from continued reclamation obligations from the Division.

If you have any questions regarding this letter, please contact me. We will await the receipt of your 1995 annual report forms. Thank you for your cooperation and assistance in this regard.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
